Libraries at AGI

The AGI has three libraries (One central library, one library for pharmacy, one library for first year students) in addition to the departmental libraries.

The libraries of the AGI have an Advisory Committee, and it is headed by the Director. The responsibilities of the two committees are as follows:

1. To improve the facilities in the library.
 2. To plan for enhancing the number of books, journals and magazines.
 3. Motivating students to improve their reading habits
- OPAC tools are used to provide access to the collection in the library. Users can access the availability of books with the help of Online Public Access Catalogue KOHA Using OPAC, the users can search for the availability of books, based on the title of the book, author and accession number. Four computers are dedicated for OPAC in the library. Users can access the library details like Reference books, Text books & CD-ROMs. Latest arrivals and the details of library books borrowed are accessed / known through Intranet.
 - Library automation is done through KOHA which is fully integrated multi-user software. It is user-friendly, informative and has the features like as search engine. All the transactions are

fully computerized and all the documents are bar coded. The bar coded ID and the scanner are used for the issue and return of books.

- OPAC tools are used to provide access to the collection in the library.

Digital Library- Open access to all faculty and students. Digital library consists of international Journals, IEEE, ASME, ASCE Journals, EBSCO eBooks , Syllabus books, previous year question papers, Lab Manuals, The Main Library Catalogue other e-books and e-Journals.

The details of the specialized services provided by the library of institution

Library of Engineering and MBA (AGI) and Library of Pharmacy maintain the following

1. Reference Section

There is a separate section for reference books and back volumes in both the libraries.

2. OPAC

Users can access the availability of books with the help of Online Public Access Catalogue (KOHA) in both the libraries. Using OPAC, the users can search for the availability of books based on the title of the book, author and accession number. Four computers are dedicated for OPAC in the library. Users can access the library details like Reference books, Text books & CD-ROMs. Latest arrivals and the details of library books borrowed are access through Intranet.

3. Reprography

Reprographic services are provided to the students and staff to take photocopies of the materials available in the both the libraries.

4. Information Deployment and Notification

Information about catalogue from various publishers, newspaper clippings on current affairs and general news are displayed in the both the library notice boards.

5. Manuscripts

Library does not have manuscript collection.

6. Internet Access

Internet access is given to all terminals available in the library. Wi-Fi facility is available in the library.

7. Downloads

Free access and unlimited downloads of e-journals and e-books within the campus network.

8. Printouts

Printing and scanning facilities are provided to the students and faculty members.

9. In-house/remote access to e-resources

- E-resources are accessible anywhere on the campus
- Users can access the e-resources through Intranet facility available in all the systems throughout the college. All the hostels in the college (Boys Hostel and Girls Hostel) are provided with Wi- Fi facilities.

10. User Orientation

At the beginning of every academic year the AGI conducts 'Library Orientation' for newly admitted students

11. Assistance in searching Databases

Qualified and trained staff members in the library help the users in searching for the databases or e-resources.

12. Feedback service:

The libraries get feedback from the users in formally/verbally. Based on the feedback, the necessary actions are taken by discussing with the Library Committee to improve the library services.

Departmental Library: Each department is having its own departmental library, in addition to the three existing libraries (one central library, exclusive library for first year students, and library for Pharmacy. We do have libraries in boys and girls hostels). All the departments put up proposals for additional library facilities, in terms of reference books and text books. The proposals are normally approved by the college. Every department adds new books and new additions. The Library committee and the director supervise the library resources, infrastructure, and computer facilities regularly.

The Chancellor, Prof UB Desai, welcomed all the members present, to the Second Board of Management Meeting of Anurag University. He then requested the Vice Chancellor, Prof S Ramachandram, to take up the items on the agenda for discussion

Item I: Minutes of the Meeting of the First Board of Management

Resolution 1: It was unanimously resolved to approve the Minutes of the Meeting of the First Board of Management

Item II: Action Taken Report

- a) Formation of Schools instead of Departments and setting up of committees for revising the curriculum which is current, inter disciplinary and job oriented

Discussion: Dr MV Krishna Murthy reiterated the need to combine all related departments into a School. For example Dept of CSE, IT and AI can be combined into a School. This would facilitate sharing of physical resources and faculty, for offering instruction which is interdisciplinary. Prof Mutha Reddy, remarked that it will be taken up in due course. The new buildings and infrastructure expansion is under planning. In the last meeting, the members had also suggested introducing Biology under Science courses. The Vice Chancellor informed that the Dept of AI has already introduced Bio-Chemistry as one of the courses. The Chancellor suggested to form a team and brainstorm the idea.

Resolution 2(a): Resolved to form Schools in due course and to brainstorm the idea of introducing Biology into the BTech curriculum

- b) Health care has gained prominence in India and MPharm (Pharmaceutical Analysis and Quality Assurance) will have great demand. Student's awareness to such needs/opportunities should be enhanced by organizing talks and collaborating with industry for internships. Further a "PG Diploma in Pharmacy and Quality Assurance" can be planned in collaboration with Aurobindo Formulation.

Discussion: Dr Vasudha Bakshi, Dean Pharmacy informed that as per PCI guidelines, MPharm (Pharmaceutical Analysis) is available and the same is being offered. However, the number of admissions to the said program was 6 against an intake of 15. Dr Vishnu Bhotla reiterated the point that Quality Assurance is of great significance to the Pharma industry. Anurag University should

procure equipment to facilitate testing and help the industries/laboratories in carrying out Quality Assurance tests. There are a lot of pharma companies and laboratories in and around Hyderabad, namely Aurobindo Pharma (with whom Anurag University has an MoU) and IICT. Doing this, will generate revenue for Anurag University. The Chancellor and the members debated the salary structure for Pharmacy graduates. Few members stated that the salary structure at the entry level was of the order of 2 - 2.5 lakhs pa. However, at the mid-level the salaries rose to 7-8 lakhs pa. The Dean was requested to prepare data to back up this claim regarding salaries and the same may be used for explaining the prospects to the incoming pharmacy graduates. Dr Vishnubhotla also suggested that there is a need in large numbers for Quality Control in the Pharma Sector. He suggested introduction of a Diploma program in Quality Control. Dr Balaji suggested that pharmacy programs should be offered in collaboration with industry as was done with PGDMISCA at Osmania University. He also suggested doing projects that were industry relevant.

Resolution 2(b): Resolved to collect data regarding the salary structure of pharma graduates at the entry level and middle level.

- c) Introduce minors option in BTech, BPharm and BBA programs and work out the details for its implementation

Discussion: The Chancellor and the members suggested introduction of "Management" as a minor for BTech in CSE / IT / AI / AIML and "Information Technology" as a minor for BBA and MBA. Alternately, they suggested introduction of courses on "Data Analytics", Block Chain etc. However, this decision can be taken after consultation with the experts from the industry

- d) Identify programs which can be strengthened and can become the forte of Anurag University. These will enable branding of the University

Discussion: Dr Krishna Murthy elaborated on identifying "Pharmacy" as a brand building program for the University. He suggested drafting an action plan with targets and goals alongside a timeline. One of the items he suggested was enhancing the All India ranking of the Pharmacy program in a phased manner.

- e) Concentrate on R&D and set up an Incubation Centre, so as to enable multidisciplinary work to be carried out

Discussion: The members appreciated that the University has registered for the Launch Pad program of T-Hub and mentioned that T-Hub is expanding into Phase-II. The launch pad program was meant to train students to set up an incubation centre at a cost of Rs 2000/- per student. The members suggested that the student be asked to pay Rs 500/- and Anurag University can pay Rs 1,500/-. The Chancellor also suggested that two faculty members be deputed to visit Incubation Centres at IITB, IITM, IITH and IITD. He gave a few points of contact, Prof Jhunjhunwala (IITM), Dr Krishna Veni (earlier with IITB) and was also willing to speak to the different IITs to enable the faculty visit. Dr Balaji suggested that the faculty be challenged to invest in setting up of the incubation centre in the ratio of 1(Faculty) is to 4(Management). Dr Krishna Murthy suggested that the faculty be encouraged to take up consultancy work to increase the revenue generation of Anurag University.
