HEIs research outcome catering to social and industrial needs is essential to strengthening self-reliant economic growth. The major push for research promotion initiatives in NEP 2020 provisions UG Honours degree with a research internship. Research Internship can address the practical involvement of students/researchers with industry, research institutions and HEIs. Students are very important in the whole higher education system. Keeping this in view, draft Guidelines for Research Internship with Faculty and Researchers at HEIs/Research Institutions have been prepared.
